

Notes:

- Broken cycle segregation lines are used as advisory. These highlight the cycle way however can be crossed by cars and/or HGV's when and if necessary
- Continuous cycle segregation lines will have physical measure in place to not permit vehicles crossing in to the cycle lanes.
- Cycle segregation details are based from Redwell products, Orca and wand Orca. The products used should be similar or approved. Units to be to be surfaced mounted with bolt fixings as per manufacturers guidance
